

Retrofitment of '06 M.Y. LED type lamps to earlier non-USA Elise/Exige 'Mk.2' models

Introduced on all 6-speed Elise variants for '06 M.Y. were new rear lamp clusters incorporating LEDs in the annular segments of the lamps. The central elements continue to use filament bulbs. The non-USA Elise also adopted the USA centre high mounted stop lamp (CHMSL) featuring red LEDs behind a white lens.

Any '01 to '05 M.Y. Elise/Exige may be updated with the LED type circular lamp clusters using the procedures detailed below:

Note: In order to suppress AM radio interference from LED brake lamp operation, an inductor jump harness is also required for these lamps.

Rover Powertrain Elise

On these cars, a vehicle set of circular LED type lamps clusters may be fitted as a direct replacement, interposing the inductor jump harness between the rear harness and the outboard lamp harness.

Inboard Lamp	A120M0035F	2 off
Outboard Lamp	A120M0034F	2 off
Inductor jump harness, brake	A120M0042F	2 off AM radio suppression. 6-way plugs

Non-USA Toyota Powertrain Elise

On these cars, a vehicle set of circular LED type lamp clusters may be fitted in conjunction with inductor and resistor harnesses.

An AM radio suppression inductor jump harness, A120M0042F, with 6-way connectors, should be interposed between the rear harness and each outboard lamp harness.

A resistor jump harness, A120M0041S, should be interposed between the rear harness and the LED red lens CHMSL. The resistor harness is required to prevent some of the CHMSL LEDs glowing when the lights are switched on with ignition. The jump harness should be constrained within the CHMSL housing.

Inboard Lamp	A120M0035F	2 off
Outboard Lamp	A120M0034F	2 off
Inductor jump harness, brake	A120M0042F	2 off AM radio suppression. 6-way plugs
Resistor Jump Harness, CHMSL	A120M0041S	1 off 2-way plugs

Toyota Powertrain Exige

On these cars, a vehicle set of circular LED type lamps clusters may be fitted as a direct replacement, interposing the inductor jump harness between the rear harness and the outboard lamp harness.

Inboard Lamp	A120M0035F	2 off
Outboard Lamp	A120M0034F	2 off
Inductor jump harness, brake	A120M0042F	2 off AM radio suppression. 6-way plugs
